

Why is it that when some people find what they want and can enjoy, there is always someone else in the wings waiting to censor, change, remove or tax it out of existence? I am so tired of commercials and the censorship of broadcast radio! That is why I choose to pay for satellite radio, to have a chose to hear what I want without being forced to listen tons of dribble from advertisers and talk show personalities. Why can't I make my own choice to pay for the programming I want to receive without the "big interests" stepping in to ruin a good thing? Maybe it is because they are afraid of change, which is what they don't want. Satellite is a change, for the better and it is light years ahead of the old boys broadcast system.

I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand, deserve and pay for.
